# **Andrews Peter**

Jacksonville, Florida | andrews.peter.business@gmail.com | https://github.com/AndrewstheBuilder |

Phone: 904-392-5294

#### Education

University of North Florida (GPA 4.0) Bachelor's Degree in Computer Science August 2018 – May 2022

#### Skills

Languages	Technologies	Frameworks
JavaScript	RedHat OpenShift	React, Redux, Material-UI
Java, C Language, C#	Jenkins	Spring Boot, Spring Boot Unit Testing
Python, PowerShell, PostgreSQL	Git, Azure DevOps, Rally	

#### **Projects**

- Spring Boot Rest API: Created multiple GET and POST APIs with unit testing(Test Driven Development) and with data persistence to an Apache SQL server in XAMPP. Tested sending and receiving data with Postman.
- Multithreaded Socket Server (Java): Multiple clients send requests to a multithreaded server. Server returns response to each client.
- Tab Bucket (Firefox Browser Extension): <a href="https://addons.mozilla.org/en-US/firefox/addon/tabbucket">https://addons.mozilla.org/en-US/firefox/addon/tabbucket</a>
  Wrote Firefox browser extension to save all currently open tabs in web browser as links to open later. Helpful for when you go down "rabbit holes" researching technical items.
- My Website (Vanilla JS): <a href="https://andrewsthebuilder.github.io/MyWebsite2021/">https://andrewsthebuilder.github.io/MyWebsite2021/</a>
- Keylogger (Python): Collects keystrokes and sends it through an (SMTP) mail server

## Work Experience

### Full Stack Developer

Florida Blue

May 2021 – Current

- Modified Spring Boot APIs to update data objects after created new columns in PostgreSQL tables.
- Became proficient with React, Redux, and Material-UI to build frontend components.
- Configured Gradle build files to manually pull required dependencies for Spring Boot projects.
- Ran deployments on Jenkins CI/CD pipeline with modified Jenkinsfile configurations.
- Utilized GitLab for version control requirements and Rally for work item management.

#### Systems Engineering Intern

University of North Florida

August 2020 - May 2021

- Demoed an ansible solution to automate updates to Windows machines on the UNF server.
- Assisted in maintaining server inventory with SQL and PowerShell scripting.
- Programmed in advanced PowerShell to introduce updates to the Azure DevOps account lifecycle repository.
